Central Java, Indonesia

Hello, my name is Kamal. I passed bootcamp HariSenin.com and KawahEducation, Experienced as a Front-End and Backend Developer working with HTML, CSS, JavaScript, Java, React.js, Node.js and Quarkus. I like to learn new things, adapt easily, like to communicate, and can work with a team. I am also known as a good listener, problem solver, and service oriented.

Work Experiences

HariSenin.com - Jakarta

Feb 2023 - May 2023

FullStack Deveeloper

The HariSenin Bootcamp is an intensive training program designed to provide participants with the skills required in a specific industry in a short period of time. HariSenin's FullStack Developer Bootcamp is an intensive one-day training program designed to teach participants the latest skills and technologies in web and software development. This training covers front-end and back-end programming, databases, and the latest tools and technologies in web development. <https://github.com/MuhammadZulfaKamal31>

Kawah Edukasi Scholarship - Bandung

Jan 2023 - May 2023

Java Backend

Kawah Education Scholarship Java Backend Bootcamp is an intensive training program in the field of software development aimed at participants who want to improve their skills in Java Backend programming. This training program is designed to help participants gain the skills and knowledge needed to become a reliable Java Backend Developer.

During the training program, participants will learn various topics and technologies related to Java Backend software development, such as an introduction to the basics of Java programming, using the Quarkus framework, relational and non-relational databases, and application testing and debugging. Participants will also be given training projects that are relevant to the field of Java Backend, so that they can hone their skills practically and directly. <https://github.com/MuhammadZulfaKamal31>

Education Level

HariSenin.com - Jakarta

Feb 2023 - May 2023

Associate Degree in FullStack Web Developer

- HTML & CSS
- Java Script
- React JS
- Node JS MY
- SQL

Kendeng Adventure - Along The Kendeng Hill

Jun 2019 - Present

member

Nature lover activities are a series of activities carried out by individuals or groups who have an interest or hobby in exploring nature and studying the environment. This activity includes various types of activities, such as hiking, camping, climbing, rafting, birdwatching, and so on.

- Hiking
- Camping
- Climbing
- Rafting plant
- Trees clean
- up trash

Skills, Achievements & Other Experience

•
Hard Skills (2022): HTML, CSS, and JavaScript: Ability to build interactive web displays with HTML, CSS, and JavaScript. React.js: Experience in developing responsive user interfaces using React.js. Node.js: Expertise in developing backend applications using Node.js. Java and Quarkus: Understanding of developing backend applications with the Quarkus framework using the Java programming language. PostgreSQL and MySQL: Ability to manage relational databases using PostgreSQL and MySQL.

Webinars Attended (2022): I once attended a Fullstack webinar held by hariSenin.com, which discussed web development and technology. This webinar can be a valuable experience for me in developing technical knowledge and skills, which can increase your value as a potential candidate in the field of web development and technology. This experience can also demonstrate my interest and commitment in developing myself professionally.

Projects (2023): I once made a project to display a website for buying and selling PS cassettes as my final project at the HariSenin.com bootcamp. This project involves the design and development of website appearance using certain programming languages such as HTML, CSS, and JavaScript, as well as using frameworks or libraries such as React. In this project, I have also paid attention to factors such as security and user experience so that the website can run well and be easy for users to use. This experience can show my ability to develop website appearance and my ability to solve problems and complete assignments properly,

Interest (2023): I am someone who is interested in the world of programming, who has an interest in developing software, websites, applications, and other technologies. I have studied or am studying a programming language such as JavaScript, Java, Golang, or another programming language. I have also taken programming courses or bootcamps or explored online resources to increase my knowledge and skills in programming. Your experience and interest in programming can demonstrate your ability to think analytically, logically and creatively in solving technical problems, as well as my ability to learn and thrive in a constantly evolving and changing field of technology. This can be a plus for you in a career in technology.

CERTIFICATE OF COMPLETION

This certificate is awarded to:

Muhammad Zulfa Kamal

Who has successfully completed the course requirements of

Full Stack Developer

Held on: 4 February 2023 – 21 May 2023

Jakarta, Indonesia

Kezia Bernadeth Manège, S.E., M.Sc.

Director of Harisenin.com

This certificate was only issued by Harisenin.com for a student who has completed the course as identified above, thereby serves as the authentic evidence of his/her participation in the program.
